The Impact of Very High S/N Spectroscopy on Stellar Physics

By Cayrel de Strobel, G. / Spite, Monique

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the 132nd Symposium of the International Astronomical Union held in Paris, France June 29 - July 3, 1987 | Proceedings of the 132nd Symposium of the International Astronomical Union, held in Paris, France, June 29-July 3, 1987 | 'I. Spectrographs, Detectors, Fourier Transform Spectroscopy, and Radial Velocities.- Ia Spectrographs.- The Lick Observatory Hamilton Echelle Spectrometer.- High Resolution Spectroscopy with a Fiber-Linked Echelle-Spectrograph.- The Most Efficient Tool for very High Resolution and very High Signal to Noise Ratio Spectral Observation of Stars.- High Signal to Noise Observations with a Photon Counting Array.- High Resolution Spectrograph Needs for Stellar Seismology.- Fiber Fed Spectrograph for Line Variability Studies.- Photometric Characteristics of Data from the Hubble Space Telescope Goddard-High Resolution Spectrograph.- Ib Detectors.- Limitations and Future of Reticon Detectors.- TH 7832CDZ (Th X31513) Bilinear CCD Array for Astronomy Applications.- On High Signal to Noise Spectroscopy with CCDs.- The Chroromospheric Spectrum of the ? Aur Binary HR 6902.- The Impact of Array Detectors on High Resolution Infrared Spectroscopy.- Ic Fourier Transform Spectroscopy and Radial Velocities.- Signal-to-Noise Ratio and Astronomical Fourier Transform Spectroscopy.- Precise Radial Velocities of F, G, K Dwarfs.- A Search for Radial Velocity Oscillations...

Reviews

Completely essential read through ebook. This can be for all who statte there was not a well worth reading. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to if you request me).
-- ***Maud Mitchell***

This ebook will be worth buying. It usually fails to price an excessive amount of. You wont feel monotony at whenever you want of your respective time (that's what catalogs are for regarding in the event you check with me).
-- ***Ernest Vandervort***
