Japan: Super Economic Power

By K.V.S. Rama, Sarma V.D. Chopra

1998. Hardcover. Book Condition: New. 254 If two representative images of Japan devastated in World War II and Japan as today's economic giant are placed side by side, it would only elicit a surprise so intense as to approach skepticism. In terms of economic resurgence and reconstruction, Japans feat in the post World War II era is probably more glorious, even than the erstwhile West Germany. The uthors have adopted a multidimensional approach to study Japans phenomenal economic growth. Significantly this book analyses the economic growth of Japan based on the ground rality in that corintry and not on the models of western industrialized carintries. Through their in cursive analysis, the authors show that Japan has modernized its economy by obilizing its socio-economic energies in its own unique way and without following any western model. About The Author:- Kota Veukata Subba Rama Sarma, is Editor-in Chief of National Herald, New Delhi. V. D. Chopra, an Intellectual of many reputes, is vice president of the International Institute for Asia pacific Studies, New Delhi. Contents:- List of Tables Preface Introduction Growth of Automobile Industry and Industrial Structure Past, Present and the Future Japanese Model of Economic Development Maximisation of Utilisation of Human...
