The Way of the Wind: The Path and Practice of Evolutionary Christian Mysticism (Paperback)

By Bruce G Sanguin

Evans and Sanguin Publishing, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book explores the Christian faith from the perspective of evolutionary spirituality. It looks at the life and teaching of Jesus through this lens. The author asserts that evolution is the fundamental dynamic of our universe, transcending biology, to include cultural and consciousness. Jesus himself was tapped into a sacred evolutionary current to transcend, yet include, his own religious lineage. This urge for self and cultural transcendence therefore is an essential element of the Christian faith: there is no final iteration of the Christian faith. Everything, including the Christian faith, is in the process of transcending itself. When we realize the mystical awareness that we are the presence of a sacred evolutionary process awakening to itself, we catalyze the power of what traditionally has been called the Holy Spirit.
